EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The following changes have been made in the subject of the application to put the claims in a condition for allowance.

In Claims:

Canceled claims 1-20

REASONS FOR ALLOWANCE

The following is an Examiner's Statement of Reasons for Allowance:

The applicant's amendment filed on 9/8/09 overcomes the technical deficiencies and the prior art rejection. Claims 21-22, 25-30, 33-42 and 44-50 are allowed because the prior art of record fails to suggest "the successive approximation register for comparing the frequency of the RC oscillator with the reference frequency to generate a control value" as combined in claims 21 and 41. In particular, the register (106) of Pham (US 6,803,813) does not compare the frequency of the comparator signal at an output (105) with the frequency of a clock (CLK2).

CONCLUSION

Any comments considered necessarily by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
